

HI 113 CONGRESS SIMULATION 2010

Committee: Agriculture

Principal Author: Jenna, Emily

Bill No: 113.17

Section: 06

Title of Bill: Nutritional School Lunch Act

BE IT ENACTED BY THE CONGRESS

1 Preamble: Whereas, school lunches have been provided by the federal government, in high
2 risk areas, at reduced prices in others, and various breakfast programs across the nation, so
3 as to provide nutritious meals for children who otherwise cannot afford to eat.

4

5 Section 1: Let federal programs for school lunches increase their funding as to provide
6 healthy and nutritionally balanced meals. Let both breakfast and lunches be provided with a
7 rich nutritional source of protein, one third of a serving of fruits and vegetables per meal.

8

9 Section 2: By FDA standards the food pyramid currently holds to the standards of three
10 servings of meat or fish, three servings dairy, four servings of fruits and vegetables, and six
11 servings of grains. Protein however, is what gives the body energy to carry on throughout
12 the day. Therefore, this bill would change the pyramid standards so that the amount of
13 protein in children's diets will increase whereas the amount of grain will decrease.

14

15 Sectional 3: Both breakfast and lunches will be free of charge for students in high risk areas.
16 All breakfast programs will be given up until the sixth grade in all public schools. Let all
17 school lunches be kept at a low price, for all public schools, and let more subsidized and
18 free school lunches be provided to those students in non high risk areas that could not
19 otherwise afford the meal.

20

21 Enactment Clause: This bill will be implemented over the next five years, as to receive
22 better funding and arrangements.
